STRIKE SNIPERS FIRE UPON GUARDS

STATE COLLECTS EVIDENCE TODAY IN DODSON CASE

Secretary Who Resigned
Under Fire To Be One
of Witnesses.

CLARK WILL TESTIFY

Cleveland County Man May
Be Sole Reliance For
Important Facts.

OKLAHOMA CITY, July 11.—The state began gathering evidence here today in the court of inquiry convened by Attorney General G. F. Short to investigate further the circumstances surrounding the alleged fraudulent issuance of two state teachers certificates from the office of W. P. Dodson, former secretary of the state board of education. Dodson, who resigned his office last week, was expected to be one of the first witnesses. In an affidavit he has admitted issuing these certificates without proper credentials. He claims that he was following a precedent in allowing those who received them a few days in which to present their qualifications. W. R. Clark, who is alleged to have obtained the certificates for two negroes for a consideration of \$200, is also expected to be examined early in the inquiry. The attorney general said the inquiry would be held in secret session.

HARDING CALLS BUSINESS HEADS FOR CONFERENCE

(By the Associated Press)
WASHINGTON, July 11.—Officials of the federal executive establishments were called together today by President Harding for the third annual business meeting of the government. Vice-president Coolidge, members of the cabinet and high officials of all the departments and agencies of the government were summoned to hear the report of the budget bureau for the past year to be submitted by the new director, Brigadier General H. M. Lord. The program of the meeting called for an address by the president recounting the operation of the administration economies during the last year and outlining policies for reduction of expenditures during the current fiscal year to combat the deficit of nearly \$500,000,000 facing the nation.

PRESBYTERY DUE TO ACT TUESDAY IN LAWTON CASE

(By the Associated Press)
ANADARKO, Okla., July 11.—Action against the Rev. Thomas J. Irwin, former pastor of the First Presbyterian church of Lawton, Okla., on ecclesiastical charges against him is expected to be announced at a meeting of the El Reno presbytery here today. The presbytery is prepared to act on a report of a judiciary committee which has been investigating the charges against Mr. Irwin. Recommendations were expected on the question of whether or not the minister will be unfrocked. Mr. Irwin, the object of two alleged attacks, is free under bond for appearance at trial on a charge of arson in connection with an alleged incendiary fire at the Lawton church early last May. Mr. Irwin denies the charge.

ALIEN PROPERTY BOSS SUBMITS HIS RECORDS

WASHINGTON, July 11.—Books and records of the Chemical Foundation, Inc., against which the government has decided to institute proceedings, were placed today by Francis Garvan, alien property custodian in the Wilson administration, and now head of the foundation, before the special grand jury recently empaneled to investigate war contracts.

Sick War Veteran Educates Wife On A \$23 Allowance

Struggling to support himself and wife on a pittance of \$23 a month received from the government, an incapacitated war veteran of this city appealed today to Norman Howard post of the American Legion for help to find a job. He is also trying to keep his wife in college here, the veteran declared. Mayo E. McKeown, adjutant of the Legion post, has sent out an appeal to anyone who has light work that a tubercular can do to notify the Legion. Legion officers said the case was one of the most remarkable and deserving that has come to their attention.

Some of the jiu-jitsu experts in Japan know every artery, bone and nerve in the human body, and how to render them inoperative.

GUARDS ENTRAIN FOR CAMP TODAY

Two Outfits Spend Night
Under Military Rules
In Local Armory.

After spending Monday night in the North Broadway barracks under full military restrictions, Battery F, 16th Field Artillery, and Second Battalion Headquarters Detachment and Combat Train left Ada on a special Santa Fe train at 6:40 this morning for Fort Sill to spend 15 days in intensive training. Major J. Byron Sledge, Capt. James H. Hodges, First Lieutenant Roy Adair, Second Lieutenant Kenneth C. Frank, were commissioned officers in charge of the headquarters outfit. Captain Robert S. Kerr, First Lieutenant Herbert Felix, First Lieutenant Edward L. Brown, and Second Lieutenant T. W. Penton were commanding Battery F. Headquarters detachment went into camp at 8 o'clock after a day filled with miscellaneous activity. Battery F went into camp at 1 o'clock this morning. "Lights out" was sounded at 1 a. m. today, after both outfits had been treated with ice cream by company officers. Reveille sounded at 4 o'clock this morning and after setting up exercises and foot drill, the Headquarters guardsmen breakfasted at the Pullman and Coney Island cafes. Members of Battery F went home for breakfast. By 6 a. m. preparations for entrainment were complete and at 6:40 the men waived farewell to the city. A number of relatives and friends of the guardsmen were at the station early today to see the companies start for camp. Visitors at Fort Sill during the training period will be welcomed.

"NEW ORLEANS OR BUST" PLANS TO BE MADE CLEAR

Full details of a "New Orleans or Bust" movement that has been started by the American Legion to stimulate interest in and attendance at the next National convention of the organization, scheduled for early October, will be explained tonight at a meeting of Norman Howard post in the legion club rooms. Call for the meeting was sounded by Gilbert F. Polly, post commander. Almost 100 men in Ada alone have signified their intention of attending the convention, Polly said, and as many more are expected to be recruited to go on the special train which Norman Howard post expects to send.

A "New Orleans or Bust" club of former service men was formed here several weeks ago and members of the legion will make monthly payments toward the budget required for running a special train.

Officers Search for Men Who Bound Hugo Man and Fired Home

(By the Associated Press)
HUGO, Oklahoma, July 11.—Officers of McCurtain, Pushmataha and adjoining counties are joined in a search for three masked men who attacked R. A. Howard, 64, dairyman, at his home near here at an early hour Monday morning, bound him hand and foot with clothes wire and set fire to his home. He was rescued by J. T. Reed, a neighbor.

Hidden Men Pour Shots On Shop Sentries in Darkness

200 National Guardsmen
Reach Herrington, Kas.,
To Guard Shops.

(By the Associated Press)
TOPEKA, Kan., July 11.—Two hundred men of the Kansas national guard arrived at Herrington today to guard the Rock Island shops and the water main leading from the city public station to the shops. According to an announcement issued at the office of the adjutant general these troops are composed of cavalry and infantry from three cities. "These troops were ordered to Herrington upon the advice of the sheriff and will remain there. They will not be responsible for the safeguarding of Rock Island shopmen upon the reopening of the shops there," Governor Allen said. "There have been two cases of violence in which Rock Island workmen have been severely beaten. Considering the large proportion of the population in sympathy with the strikers it appeared to be necessary to take the precaution of having troops on guard."

Clerks Walkout
WEST SALEM, July 11.—Thirty-five of the forty-two clerks of the Norfolk & Western here left their desks at 10 o'clock this morning in response to the strike authorized by grand president Fitzgerald.

ROANOKE, Va., July 11.—Not a single clerk struck on the general walkout authorized by grand president Fitzgerald of the clerks union, according to a statement made at the office of the railway president at 10:30. Information regarding the effects of the strike call at other points of the system was not available.

54 Trains Taken Off
DANVILLE, Ill., July 11.—Fifty-four trains have been taken off the Wabash railway it was announced here today. Officials said the curtailment was due to lack of coal from Kentucky and not to the strike.

SPRINGFIELD, Ill., July 11.—Sheriff Morrison of McClain county called Adjutant General Black at 11:20 this morning to protest against the alleged shooting by the state troops sent to protect the Chicago & Alton shops and workmen. "They are hitting the houses," the sheriff complained. It was pointed out that the state troops had been sent to Bloomington to protect the workers in the shops and have no authority to establish martial law and the sheriff is still the legally constituted law officer of the county.

General Black said no further troops had been ordered to Bloomington but that several companies were held in readiness if needed.

16 INITIATED IN DE MOLAY ORDER IN SERVICE HERE

Assisted by a team from the Shawnee chapter of Demolay, the local members of that organization staged their first initiation ceremony here last night at East Central College. Eighteen new members were taken into the local chapter. Ceremonies were attended by a large number of local Masons who are sponsors of Demolay here. Initiation was to have begun at 8 o'clock but was delayed until the entire Shawnee contingent had arrived. Car trouble caused the late arrival of the visitors. There were about twenty in the party, which included Dr. Baxter, E. V. Mashburn and Clarence Nuckolls, Shawnee Masons, in addition to the Demolay team.

After the ceremony, the Rainbow girls served punch and waters in the reception room. Following the refreshments the Shawnee party began their homeward drive. Initiation of last night brings local membership in Demolay to about forty.

Those initiated were: Arnold Mallory, Frank Potts, Willie Williamson, Glen Walters, Harold Allen, Jackie Wright, Charlie Gregg, Turner King, Renfro Herndon, Al Huffar, Agnew Standridge, Lloyd C. Rose, Willie Tain, J. G. Whitwell, Harley Brown, Homer Kirkendall. Several of these are from Francis and Stone-wall.

FAULKNER APPEALS FOR PROTECTION BY TROOPS

HATTIESBURG, Miss., July 11.—L. E. Faulkner, general manager of the Mississippi Central railway, at noon today renewed his appeal to Governor Lee M. Russell asking that troops be sent here to protect property at the Mississippi Central shops. The officer said that non-union men were forced to leave the city after being intimidated by the strikers.

RAILWAY STRIKE SITUATION

Sheriff of McClain county, Ill., calls adjutant general to protect alleged shooting by state troops sent to protect Chicago and Alton shops and workmen.

Two hundred men of Kansas National guard reach Herrington, Kan., to guard Rock Island shops.

Wabash Trains Off.
Fifty-four trains taken off Wabash railway because of lack of coal.

Three hundred shots exchanged between strikers and guards at Bloomington, Ill.

Increasing Disorder.
Curtailed of train service and establishment of troops on duty at trouble centers are reported. Troops are ready to move in Kansas and Missouri. Acts of violence follow attempts to hire non-union men in California.

Signal Men.
Will not strike now, president of organization declares. Disagreements to be taken up with roads separately.

Corporation Commission.
Declares its orders have been repeatedly held in contempt by M. K. & T. in curtailing its train service.

Midland Valley.
Takes off two trains because of shop strike conditions.

REPORT SERIOUS BREAK IN MAILS

Government Facing Grave
Problem in Strike of
Railway Shopmen.

(By the Associated Press)
CHICAGO, July 11.—Interference with the United States mail became a serious problem in the shopmen's nation-wide strike today.

Reports to Washington threw a serious light on the situation. Several roads advised the post office department that their mail train schedules were being curtailed although the department is said to have reported the situation not as serious as given in the railroad advices.

Troops and United States marshals were in charge of numerous points where trouble threatened. The most serious situation arose at Bloomington, Illinois, where state troops are on duty. Snipers are reported to have fired on the guardsmen patrolling the Chicago and Alton yards. With a machine gun fusillade the troops retired.

The post office department was advised that 3000 miles of the Wabash railway mail service has ceased operations, due, however, to shortage of coal.

Weather

Tonight unsettled, with local showers, cooler; Wednesday partly cloudy, warmer in the northwest portion.

Rainfall at Ada for the first six months of 1922 totaled 21.35 inches, according to E. A. MacMillan, local observer. By months it follows:

January 1.97; February .80; March 3.65; April 7.16; May 5.40; June 2.37.

During June there were 6 days on which rain fell. The greatest during any 24-hour period was 1.25 inches.

There were 18 clear days during June, 10 partly cloudy and 2 cloudy.

Guards Answer Volley with
Hail of Lead But the
Targets Escape.

(By the Associated Press)
BLOOMINGTON, Ill., July 11.—More than 300 shots exchanged by state guardsmen and snipers marked the first night's control of the Chicago and Alton shops by the troops.

Two men hidden in a gully north of the shops fired twice at sentries shortly before 3 a. m. Three hundred rounds from automatic rifles were poured into the gully. At daylight the place was searched but no trace of the snipers was found.

Shooting was resumed at 7:15 this morning, when snipers fired on a sentry at the northeast edge of the shopyards.

No one was wounded on the soldiers' side during the night.

It was unofficially reported at the camp this morning that two more companies of troops would arrive today.

It is also understood that non-union workmen will arrive from Chicago today.

Fresh Violence Reported.
CHICAGO, July 11.—Increasing disorder, curtailment of train service, and establishment of troops on duty at several trouble centers marked the progress of the railroad strike today.

Fresh acts of violence occurred in California where at Roseville, 15 miles from Sacramento, an employee of the Pacific Fruit Express was shot while on duty at a car icing plant.

Armed strike sympathizers are said to be occupying positions commanding the icing plant.

Troops were on guard of railway property at Bloomington and Canton, Illinois; Parsons, Kansas, and New Franklin, Missouri. Additional units of national guardsmen are under arms ready to entrain for trouble centers.

Mails Are Guarded.

United States marshals were protecting the mails on southwestern lines and guarding the Burlington shops at Aurora, Illinois, where 1,000 pickets have surrounded the shops.

Many injunctions have been issued by the federal courts restraining strikers from interfering with the operating of trains and shops. Picketing is general.

Following a meeting in New York union leaders have declared that their following is 100 per cent striking and refuse to be intimidated by threats of suspension of seniority rights.

Some eastern roads, including the Pennsylvania, the New York Central and the Delaware and Hudson announced that they had enough mechanics, locomotives and rolling stock to continue the present service indefinitely.

Santa Fe "On Top."

The Santa Fe announced that it was "on top of the strike" and that the situation is improving steadily.

"A few days ago," said A. G. Wells, vice-president of that road, "will put us where we were before the strike started with a number of our old employees coming back to work and many new men applying for jobs."

Signal Men Won't Strike.
CHICAGO, July 11.—The brotherhood of railroad signal men will not strike for the present, at least, according to a statement issued this morning by J. W. Helt, president of the organization. The decision was arrived at after a conference between the executive board of the union and the railroad labor board.

Mr. Helt's statement said that the signal men would take up all questions of disagreement with the roads separately and in case an understanding was not arrived at the case would be taken up again with the railroad labor board.

Crowds of strikers and strike sympathizers began crowding around the shops this morning and at 10 o'clock an order was issued to set up machine guns covering the crowds.

The officer in command of the state troops at Bloomington made an official report to Adjutant General Black this morning that only three shots were fired at the Chicago & Alton shops at Burlington, one from outside the military lines and two from the inside, one of which was accidental.

Florida fruit growers use 13,000,000 crates annually for shipping purposes.

Small Waif Finds Home After Weary Bumming On Rails

A weary little 14-year-old waif found a friend, and through this friend a home, when he arrived in Ada this week after a long journey from Clovis, N. M., and was directed to the Pontotoc County Red Cross.

He was trying to find a brother who worked in a pool hall at Henryetta, he said. The family had set him adrift, homeless and penniless.

When he had eaten a hearty meal and had been provided with clean clothing, the little wanderer appeared cheerful and talked freely. Then a friendly traveling man bought him a soda.

"It's the first I've had in weeks," the lad declared. He was placed in the home of Mrs. Bruno Mayer.

SANTA FE SYSTEM IS NOT HARD HIT

Passenger and Shipping
Service Near Normal
President Says.

Passenger and freight service on the Santa Fe railway has been only slightly impaired by the present strike of union shopmen, according to an official statement today by W. K. Etter, general manager of the company, transmitted to Oklahoma points on the system.

The statement follows: "There are so many unfounded rumors in circulation about strike conditions on the Santa Fe railway that I deem it necessary for the information of our employees and the public to make this statement: "On June 29, two days before the strike, the Santa Fe posted a notice to employees of the six shop crafts to the effect that all who left their work on July 1st would sever relations with the company, and forfeit all rights under the pension and death benefits.

"That was an announcement of the company's policy, and employees were urged to count the cost before complying with the strike order. There has been no change in this policy.

Purcell Denies Rumor.
"Today wide publicity was given to a statement in which John Purcell, in charge of the Santa Fe's mechanical department, was quoted as saying that a time limit likely would be set for the return of strikers to work. Mr. Purcell has authorized a vigorous denial of this statement. Strikers who return to the service of the Santa Fe will come as new employees, and new men who have been employed since the strike will be retained in the service.

"Train movement on the Santa Fe is normal, both for passenger and freight traffic. The air hose on several trains in Missouri have been cut, but fortunately the difficulty has been discovered in time to prevent accident. Locomotives have been tampered with at Shopton, Iowa, but in each case the vandalism has been discovered in time to enable us to overcome the difficulty. In Chicago and a few other places pickets have prevented our men from going to work, but generally conditions are steadily coming back to normal. In our Topeka shops today 1401 men were at work as against 1349 Wednesday, and 1167 Monday. All shops on the system are in operation with every department functioning up with the work that accumulated the first few days of the strike.

Follows Board's Decision.
"It is very much to be regretted that some of our shop workers went out by direction of their union officers as a protest against a wage decision of the United States labor board. The Santa Fe and its employees have tried out their differences before the labor board, and the company has steadfastly followed the board's decisions, whether favorable to its interests or against them. When the board granted an increase in wages of employees, with back pay, the company promptly put the decision into effect, and the employees rejoiced. Later when conditions required some readjustments in wages and rules, the company took orderly steps to have changes made, and again the company and its employees presented their case to the board. Certain adjustments which made reductions in wages and rules were announced by the board a year ago, and recently. As a result of the last decision a number of shopmen have gone on a strike.

(Continued on Page Six)

MIDLAND VALLEY TAKES 2 TRAINS FROM SCHEDULE

Reason for Curtailment Is
Promptly Asked by Cor-
poration Commission.

SHOP STRIKE BLAMED

Katy Is Cited in Six Cases
for Holding Orders of
Board in Contempt.

(By the Associated Press)

OKLAHOMA CITY, July 11.—The corporation commission today received notice that the Midland Valley railroad is withdrawing from service two passenger trains operating between Muskogee, Oklahoma, and Fort Smith, Arkansas, due to the general strike of shopmen. The commission immediately demanded specific information as to why the service had been curtailed. The reply to the commission is expected late today.

The commission cites six occasions of contempt for the commission against the M. K. & T. railroad for failure of that road to obey the commission's order forbidding withdrawal of trains from service without obtaining the consent of the commission. Six trains have been cancelled by the M. K. & T. in this state.

CARE OF INJURED SOLDIER AFFORDS A GIANT BURDEN

(By the Associated Press)

WASHINGTON.—Taking care of Uncle Sam's disabled veterans of the world war and fitting them for useful vocations, is a huge task, according to a Veterans Bureau publishing accounts of the number of men undergoing vocational training. Up to May 1, the Bureau's figures show, a total of 601,515 veterans had applied for vocational training, of which number 312,939 applications had been approved. In addition to the 30,000 factories and industrial organizations which are offering placement training to 36,704 veterans, there are 3,228 institutions engaged in the work of retraining men who were disabled or partially disabled. Of this number there are 162 universities, 253 colleges, 38 state normal schools, 1,041 commercial schools, 244 public schools and 26 institutions teaching miscellaneous subjects. Of these 49 are government institutions.

The number receiving instruction has almost doubled in the period from July 1921 to last May, the Bureau says. On July 1, 1921, there were 85,338 men actually taking vocational training, and on May 1 last there were 108,919.

The number of those graduated, or declared rehabilitated, is constantly increasing. Up to last July 5,050 men had been declared fit to take up new vocations, and since that time 7,514 veterans have been added to that number.

Agriculture, the Bureau adds, seems to be the most popular source of instruction. The other courses which seem in greatest demand are commercial, professional, mechanical and electrical trades and the various crafts. In the government schools alone which offer such courses, 4,674 veterans are enrolled.

Wolf Cubs To Revel In Races Wednesday On Glenwood Ground

Lots of fun for all the Wolf Cubs is promised at Glenwood Park Wednesday at 3:30 p. m. All parents of Cubs are invited to witness the egg race, snail and sack races, the fifty yard dash, and all swimming contests. Eagle scouts Dick Simpson, Russell McAlister, Carl Spangler, Glen Spencer and Tom Steed and Frank Evans instructed Cubs for their events and hotly contested races are expected. The swimming contests will come after the land races and then all Cubs will get a half hour's free swim.

Officials for the Wolf Cub meet are: Judge, Coach M. Z. Thompson; Starter, C. N. Auld; Clerk, W. G. Moser; Time Keeper, M. C. Taylor.

There are 30,000,000 grade and scrub diary animals in this country and less than 1,000,000 pure breeds.

A STRENGTH AND REFUGE:—O Lord, thou art my God; I will exalt thee, I will praise thy name; for thou has done wonderful things. . . . Thou has been a strength to the poor, a strength to the needy in his distress, a refuge from the storm, a shadow from the heat.—Isaiah 25:1, 4.

WHAT WOULD YOU DO?

If you knew positively that this would be your last day to live, what would you do? A few months ago the editor of a small weekly newspaper in North Carolina realized that death was certain within a few hours. The last day in his office he wrote an article, which was found later by his successors. While the whole article is interesting, bits of it reflect a depth of feeling and knowledge of life which would do credit to the greatest philosophers of all time.

"Now this contemplation of unbuckling the harness, of quitting the work I love, is calculated to bring on some sob stuff and it may be that some of you like to read that kind of stuff—but I do not like to write it."

"I pass my pen to another hand. I wish I knew who will take my place here in the Enquirer office. I might tell him a few things that would be of interest, if not of benefit to him."

"My work, as I have intimated, has been pleasant. There have been, of course, times of gloom. The paw of old 'hard times' has, now and then, pressed painfully hard on over-burdened shoulders, but there has not been a time when that hard old paw pressed down hard enough to crush to earth. The night has not been so dark that there was not now and then, between the clouds, the glimmer of the star of hope."

"My relations with the public have been pleasant. The public is not as good as the candidate for office tells it that it is, neither is it so absolutely bad as the defeated candidate thinks it is, and taking it year by year the public is pretty fair in its dealing with the individual, at least I have found it so."

"Perhaps some one will want to know what are my views concerning death and the future state. My answer is, I know nothing about death, that mystery that all men since the race had its origin have faced, I know no more about the future than the cave men knew. And you who read this know no more. But although I do not know, and cannot know, I can trust—no man can do more."

William Gilbert, who has conducted an iron foundry here for several years and made a success of it, says that in course of a few years he expects to see one of the largest foundries in the country located at Ada. Among his reasons for this optimistic prediction are the following: Gas supply, transportation facilities, and greatest of all from the standpoint of a foundry man, an unlimited supply of the best moulding sand to be found in the United States. He has been in the foundry business for more than thirty years and has never found this clay anywhere except in Pennsylvania and only small pockets of it there. He says that the average man has no idea what this means to a foundryman. Without it some castings would be out of the question entirely and others would be very difficult. For instance he is now casting some storm sewer inlets. It is a simple matter when the clay found here is used, but without it the work is tedious and difficult. The clay is of a sort that holds together well and hence does not fall in the mould after the pattern has been removed. As an example of how this clay works Mr. Gilbert cast two wheels for the cement mill three of four years ago, each wheel weighing 18,000 pounds. This was some undertaking for a plant the size of his, but he succeeded. He predicts that when the qualities of this clay are generally known it will be used by foundries in all of the states adjacent to Oklahoma. This clay is another of the numerous valuable mineral resources of Pontotoc county.

The world's supply of cotton is said to be almost exhausted and that by the time the new crop begins to move it will practically all be gone. This is encouraging to the growers for heretofore the standing excuse for hammering down the price is that there is a big surplus on hand. This time there will be no such argument and the recent advance in the price of cotton indicates that the spinners anticipate a scarcity and are trying to get hold of all possible. There is no reason to believe that the crop will be very large this year. It is certain that the weevils will do more or less damage, even if conditions are favorable otherwise. With every prospect of a fair price there is every incentive to push the fight against the weevils and put forth all possible effort to make a crop. Even if the crop of Pontotoc county is no more than 10,000 bales it will go far towards relieving the situation.

The voters of the United States have shown a strong tendency this year to break away from the old time bosses and vote as they pleased. The result is that several self-appointed leaders are out of job and others on the skids. It will be a great day when people think and vote for themselves instead of blindly following some crook who insists on telling the bunch where to head in.

TRYING TO "PAN" THE SWARMS BACK TO WORK

Political Announcements

The News is authorized to announce the following as candidates for the offices named, subject to the action of the Democratic primary.

State Offices

FOR DISTRICT JUDGE:
D. W. HUFFAR
AIDEN L. BULLOCK

For State Senate:
W. H. EBEY
JOSEPH C. LOONEY

For State Insurance Commissioner:
E. W. HARDIN

For State Treasurer:
A. S. J. SHAW

For Representative:
W. O. PRATT
F. H. McKeel

For State Auditor:
GEO. W. HINES

For Representative in Congress:
TOM D. McKEOWN

For President State Board of Agriculture:
JOHN A. WHITEHURST

County Offices

For County Superintendent:
F. E. GRAY
A. FLOYD—(Re-election)
A. T. WATSON
MRS. PARRIE BRITT

For County Clerk:
RIT ERWIN

For County Weigher:
J. M. (JIM) BYRD
JOHN WARD—(Re-election)
GEORGE O. BEVEL
B. (Pete) LASATER

For County Attorney:
A. C. CHANEY
H. F. MATHIS
J. W. DEAN

For Sheriff:
JOE E. SLOAN
BOB DUNCAN
W. B. WALKER

For County Treasurer:
J. L. LAUGHLIN
J. W. (JIM) WESTBROOK
ORIN NELSON
ALBERT CHAMBERLAIN

For County Tax Assessor:
NICK HEARD—(Re-election)
J. B. FABER

For Court Clerk:
L. E. FRANKLIN (2nd term)
W. B. (BILL) SUMMERS

For Justice of the Peace:
JOSEPH ANDERSON
H. J. BROWN
W. H. (BILLY) RODGERS

For Constable for Ada:
S. B. STARBUCK

For County Judge:
B. H. (Ben) EPPERSON
TAL CRAWFORD—2nd term

County Commissioner, Dist. No. 2.
CHARLEY LASEMAN
I. E. GILMORE
L. D. BRANDON

For County Commissioner:
(District No. 3)
J. W. HIGBEE

For County Commissioner, District No. 1:
H. CLAY STEPHENS—2nd term

Rockefeller's Dimes.

(Ardmoreite)
The world's richest man, John D. Rockefeller, goes to a circus. He laughs at the clowns, feeds peanuts to the elephants, applauds the hair-raising acrobatic acts, and buys "pink lemonade" and "hot dogs."

All around, it is a complete circus day, even to his daughter-in-law having her tintype taken on the midway.

"It brought back memories of boyhood days," said John D. And it probably is a safe bet that he had the best time on circus day that he has had in a year, though the diversion was of the inexpensive sort within the means of the man who can count the dollars of his weekly pay envelope on his fingers.

The greatest joys of life, for rich or poor, involve simple things. And our greatest pleasures are inexpensive. Money is desirable, but it is not everything. This may be platitudinous. Most platitudes, however, are true and philosophical.

The mob that followed John D. Rockefeller about the circus was most interested in the dimes he gave to 200 of the fun producers.

Observe his system—only one dime to each person, and always a bright, spanking new dime, fresh from the mint.

John D. always carries a pocketful of dimes—and never appears in public without distributing some of them.

He is rich enough to distribute \$5 gold pieces. They, however, would be quickly spent. He is shrewd enough to know that nearly everyone would save a dime from the world's richest man, as a "lucky piece."

In his unique psychological way Rockefeller is trying to impress the public with the value of the humble dime. Pennies might be hurled back at him in derision. But none except drunken men ever throw a dime. Probably John D. is like the rest of us, and would spend dollars of time trying to recover a dime lost through a sidewalk grating.

You see Rockefeller, with his dimes spreading the wisdom of thrift with all the cunning theatrical instinct of Phineas T. Barnum.

After all, it was thrift that gave him his start, back in the days when he was a bookkeeper toiling for \$35 a month.

He learned to handle dimes before he was able to handle dollars. So did Henry Ford when he was a machinist. So did Schwab, when he was a day-worker in the steel mills.

Comfortable financial independence is a matter of plain old-fashioned thrift, though expanding the modest fortune to a gigantic fortune depends on ability and chance.

Is New York Lost to America? (Muskogee Phoenix)

Several months ago the manager of one of the greatest press associations of America, a man who sits at his desk with fingers constantly upon the pulse of the world, looked squarely into the eyes of a representative of the American Legion and solemnly declared:

"I am glad you men are at the task. New York is already lost to America."

It was a statement that staggered an alarm that cried for instant response. And though it came from the lips of a man who could not help but know it was a declaration beyond belief.

New York is the heart of America. Its blood flows through the veins of the nation. From New York we receive the literature we read, she gives us the plays with which we are entertained, she decrees what fashions we shall wear. Even our prosperity, the bulk or thinness of our purse, is largely dependent upon her whims.

And yet New York is not American!

The man from out west may walk her streets and, listening to the jabbering of a hundred jargons, begin to doubt her Americanism. He may ride her subways and scanning the placards in the cars printed in four different languages, wonder into what polygot city he has been hurled. He may look upon the faces of her people or glance at the peculiar newspapers which they read in amazement.

Still he is unwilling to believe that America's largest city is "lost to America."

From Dr. Royal S. Copeland, the great city's commissioner of health, the Phoenix has received, at its request, this information.

In the city of New York in 1920 (the year of the federal census) there were 1,737,043 male whites over 21 years of age. Of this number only 749,387 were native born; 927 came from across the seas. Less than half, 405,009, were naturalized. Of the 1,738,999 white women in New York over 21 years of age

"PRODIGAL JUDGE" NEW THING IN FILM STORY

"The Prodigal Judge" brings to the screen a character who has long lived in fiction and has become endeared to the hearts of fiction lovers. Eloquent at every bar, Falstaffian in capacity of appetite and intellect, the judge is a man to be reckoned with. In him the ridiculous struggles for mastery with the sublime. The spectator laughs over him and then loves him and in the end rises to a point of delighted admiration for the vagabond who still remains the high-minded, great-hearted gentleman. He is the most striking character in a picture of many striking characters; a romance rich in incident, hearty in humor, full-flowing in a broad current of life and events. Love and hate and private feud, true friendship and evil ambition, the mysterious and unexpected, all have their place in the plot of this great American picture. And the very core and focus of interest is the unforgettable, magnificent figure of the Prodigal Judge.

It has been termed a Rembrandt of the screen and the greatest picture of the year.

Liberty theater Wednesday and Thursday.

TWO DIVORCE PETITIONS ARE ENTERED MONDAY

Two divorce petitions were filed yesterday in the district court. They are Gladys Coffey vs. Montie S. Coffey, and E. L. Lindsey vs. D. Lindsey. Only two other actions were started. They were two cases of Homer Phelps and J. G. Witherpoon vs. C. W. Zorn, abstract of judgment.

810,162 were born in America. Of the remaining 870,140 who were born in other lands only 360,255 subscribed to our constitution.

The figures need no comment. Of all the white people in New York city less than half are native born Americans. True, some have been naturalized, and that is well, but the signing of a paper or the taking of an oath only partly understood cannot destroy the inheritance of countries nor instill into a man's heart the spirit of true Americanism.

Talk of the Town

Our new finish in photography, varietones, etching and Deluxes sepias, every one a distinction of its own. The Deluxes sepia is our own creation, and you can get them only at our studio.

Natural Pongee With Peasant Embroidery

By MARY BROOKS PICKEN

THE beauty of this design is emphasized by the color combination, natural pongee with old blue and red peasant embroidery, which of itself makes one appreciate the attractiveness of the dress.

The simple, easy lines of the one-piece dress are always pleasing and especially so when raglan sleeves and smart pockets are marveled in to help in evidencing youthfulness.

Peasant embroidery means of necessity many small carefully placed stitches, but once a design is achieved it is sure to be appreciated. Novelty braid trimming or bias gingham with cross stitching may be substituted effectively for trimming on such a dress.

The hat is new, jaunty, and usually quite becoming, especially when blue taffeta ribbon is the material and is arranged as attractively as in this case.

SENATOR EDGE TO FIGHT PRESENT TARIFF SCHEME

(By The Associated Press) WASHINGTON, July 11.—Announcing that he was far from supporting the administration tariff bill in its present form, Senator Edge, republican, New Jersey, served notice today in the senate that he will not vote for the measure if it fails to provide otherwise than through congressional action some authority by which individual schedules could be revised as circumstances and investigation warrant. Provision for revision by the president is contained in the bill.

Bridge Club Meets.

The Saturday Bridge Club was entertained last week by Miss Jeanette Bobbitt at her home on South Broadway. When the greater part of the afternoon had been spent playing bridge, delicious refreshments were served.

Afterwards a business session was held. Miss Roberta Allen was elected score-keeper and Miss Susan Holman, was pledged membership in the club.

The club will meet next week with Miss Ora Ewing of 716 East Tenth.

Those present were Misses Roberta Allen, Ora Ewing, Violet Knight, Alice Gowing, Geraldine Hale, Oleta Montgomery, Annie Laurie Hill, Virginia West, Catherine Griffith and Chloe Smith, Velma Watwood, Dottie Gay and Susanne Holman were guests.

Murray Club Entertains

The Murray County Club of East Central Teachers College entertained its members with a line party, Monday evening, at the McSwain theatre where, "Where Is My Wandering Boy Tonight" was featured. Couples for the evening were formed by matching comic names. After the show all went to Wozencraft's Drug store where delicious refreshments were served to the following:

Miss Nina Belle Teague, Thelma Louise Cowart, Corda Bowser, Lorna Chambliss, Rosa McPherson, Winnie Chaffin, Artie Heiple, Willena Duncan, Florence Corley, Fannie Sparks, Nellie Baird, Beatrice Bowser, Hazel Crow, Velma Bollen, Ruth Turner, Mrs. Augie Harrell, Mrs. Arvilla Moffitt and Mr. Houston Wright, Ulys Gaither, Elbert Dumas, U. C. Moffitt, Wayne Bowen, D. W. Hodges.

Elks Revise Roster.

A very enthusiastic number attended the regular meeting of the Elks Lodge last night, where first work of reconstructing the membership was begun. Many members were dropped from the rolls and many more put on a list for future action.

Fred Sloan of Ada was taken into the fold as a new member.

The entertainment committee is now preparing for the purchase of a large radio receiving set with a loud transmitting horn. With this set members will be able to hear all of the broadcasting stations in the United States as clearly as they do a vitrola. No head receivers will be necessary.

On account of the demand for radio equipment it will be several months before this set will be completely installed. Such a set will be an asset to the lodge as not only can musical entertainments be brought in but base ball scores, market quotations, lectures and even political speeches can be heard.

Hold Picnic Today.

Members of the Episcopal Sunday school were guests today of P. A. Norris in a picnic at Horseshoe Ranch. The delegation left Ada in cars early this morning and will return at a late hour today. Mr. Norris was at the ranch to receive and entertain his visitors in person.

Two Boys Arrested Upon Rape Charges By Deputy Sheriff

Pentrest Parnell, 15, and Opie Shofield, 17, were arrested Monday night by Deputy Sheriff J. B. Chapman on a charge of rape. Both boys live south of town, a mile west of Abbott's store.

Charges were to be filed against them in justice court Tuesday by Assistant County Attorney Hugh F. Mathis. Details of the complaint have not been made public.

SOCIETY INTEREST BOOMS IN OZARK TRAIL

Starting of Pyramid Is Watched With Interest By Road Boosters.

Starting of actual construction work on Ada's Ozark Trail Pyramid at Main and Oak has stimulated interest in a movement to place the city upon a well-marked highway from Texarkana to Stratford, according to N. B. Stall, president of the Good Road Motor Club.

Mr. Stall is in receipt of a letter from J. E. Swepton, president of the Ozark Trails association, requesting information as to whether Ada has a free camp ground for tourists and including a list of towns on the Texarkana-Stratford branch, with distances between each and the distance of each from terminus points on the route.

Texarkana to Stratford	
0	Texarkana 278
20	Ashdown 258
18	Foreman 240
32	Idabel 208
35	Valliant 173
11	Ft. Townsend 162
18	Hugo 144
21	Antlers 123
11	Darwin 112
13	Farris 99
6	Lain 93
5	Brand 88
6	Atoka 82
9	Lehigh 73
6	Coalgate 67
12	Centrahoma 55
12	Stonewall 43
22	Ada 21
21	Stratford 0

Anyone who has driven any of these routes and knows that any of the distances between towns as stated are wrong is requested to notify N. B. Stall immediately.

DEMPSEY WILL BATTLE WILLS FOR CHAMPIONSHIP

(By The Associated Press) NEW YORK, July 11.—Champion Jack Dempsey and Harry Wills, through their managers, today signed a contract to box for the world's heavy weight championship at a time and place to be named later.

THIS STREET DRESS IS NEW FALL DESIGN

Although summer frocks are occupying the attention of most women during these summer days, designers have already decided what will be worn in the fall. Here is just a hint of what the exclusive shops will carry. This street frock of distinctive design is a bit extreme as to trimming, but the lines are quite simple. It is fashioned of wool seal cloth with collar, low belt and wide side panel of gray squirrel fur. The side panel forms the uneven hem which will persist in most fall garments.

Let a News Want Ad get it.

Oklahoma Light and Power Co. Business Policy

In these days of customer ownership of preferred shares, commission regulation of rates, service and earnings, our business policy towards customers, employees, shareholders and the community is important to you.

We are considered by many as a "monopoly" which is true to a certain extent. To a greater extent the Oklahoma Light and Power Co. is a merchandise industry like any other, depending for its success on high quality of service and fair prices, upon courtesy of its employees and the ability of the management to keep the business of furnishing highly essential commodities in step with the progress of the community.

The Oklahoma Light & Power Company's policy in a nutshell is this: To give customers first class service, fair rates and courteous treatment.

To deal fairly with its employees, paying wages that will attract the best workers and keep them with us.

To employ at all times sound business methods insuring our shareholders a return on their money invested with us. To keep pace with the growth of the community by providing adequate, dependable service for industrial and domestic use.

LINCOLN NOT FOE TO PROHIBITION

Great Emancipator Never Lent Hint of Approval To Liquor Traffic.

(By the Associated Press)
CHICAGO, July 11.—Denial that Abraham Lincoln had once declared himself as opposed to prohibition was made today by the Rev. Duncan C. Milner, Associate minister of the Presbyterian church, a civil war veteran and chaplain of the Loyal Legion.

In a statement intended to refute the claim of "certain wet organizations" that the "Immortal Lincoln had ever lent even a hint of approval to the liquor traffic," Rev. Milner, made public an affidavit signed by three nationally known men setting forth that an alleged quotation from Lincoln which was used in a local option campaign in Georgia in 1887 was an admitted fraud.

The affidavit, signed by the Rev. Sam Small, evangelist, Rev. Sam Jones, and Henry W. Grady, declares that "sometime after the campaign, Col. John B. Goodwin, who had been the director of the anti-prohibition forces told that he himself had composed the alleged words of Lincoln so as to attract the adhesion of the colored voters."

The alleged statement of Lincoln's views were set forth in a circular letter widely broadcast in the campaign, and did much to defeat the local option measure by winning over the entire colored vote to the side of the "wets," Rev. Milner explained.

Error in Crediting
The words credited to Lincoln, but since admitted to be those of another were:

"Prohibition will work great injury to the cause of temperance. It is a species of intemperance itself, for it goes beyond the bounds of reason in that it attempts to control man's appetite by legislation and in making crime out of things that are not crimes."

"A prohibitory law strikes a blow at the very principles on which our government was founded. I have always been found laboring to protect the weaker classes from the stronger, and I can never give my consent to such a law as you propose to enact. Until my tongue be silenced in death, I will continue to fight for the rights of man."

The quotation was headed "Abraham Lincoln's Proclamation," and was followed with this appeal:

"Colored Voter: He appeals to you to protect the liberty he has bestowed upon you. Will you go back on his advice? Look to your rights! Read! Act! Vote for the sale!"

Rev. Miller declared that the alleged statement of Lincoln is being circulated today by organizations opposed to the eighteenth amendment, and appealed for a "campaign to forever clear the name of the Great Emancipator of so foul a stigma."

The affidavit made public by Rev. Milner says in part:

"That the Rev. Sam Jones, Henry W. Grady, this affiant, and many other speakers then openly denounced the purported words of Abraham Lincoln to be a flagrant forgery, defied discovery of them in any recorded utterances by Lincoln, and offered a reward for proof of their genuineness but no one produced any such proof."

"That some time after the excitement of the campaign had disappeared, this affiant, in conversation with Col. John B. Goodwin, who had been the director of the anti-prohibition forces in said campaign, was told by Col. Goodwin, that he himself devised the circular in question, composed the alleged words of Lincoln so as to attract the adhesion of the colored voters and had done so because to win them was the forlorn hope of the 'wets,' the country at that time being under a prohibition law."

HUGO.—Choctaw county is to be removed from the area quarantined on account of cattle fever tick infections, Lee Hite, in charge of the dipping operations in Choctaw county, has announced. Seventy-seven vats now are in operation in the county and cattle owners are co-operating with officials in combating the infection, Hite said.

CUTICURA HEALS ITCHY ERUPTIONS

On Child's Scalp. Caused Much Pain and Suffering.

"When my little girl was two years old sore eruptions broke out on her scalp, causing her much pain and suffering. The eruptions itched and burned so that she scratched and irritated the affected part, and she could not rest at night. Her hair fell out, and was lifeless and dry."

"The trouble lasted four or five weeks before I began using Cuticura Soap and Ointment, and after using two cakes of Soap, together with the Ointment, she was healed." (Signed) Mrs. John Bradshaw, Rt. 1, New Market, Tenn., Sept. 2, 1921.

Use Cuticura for all toilet purposes. Sample each free by Mail. Address: Cuticura Laboratories, Dept. 9, Malden, Mass. Sold everywhere. Keep 25¢. Ointment 50¢. Talcum 25¢. Cuticura Soap shaves without mug.

When Rail Heads Prepared for Strike

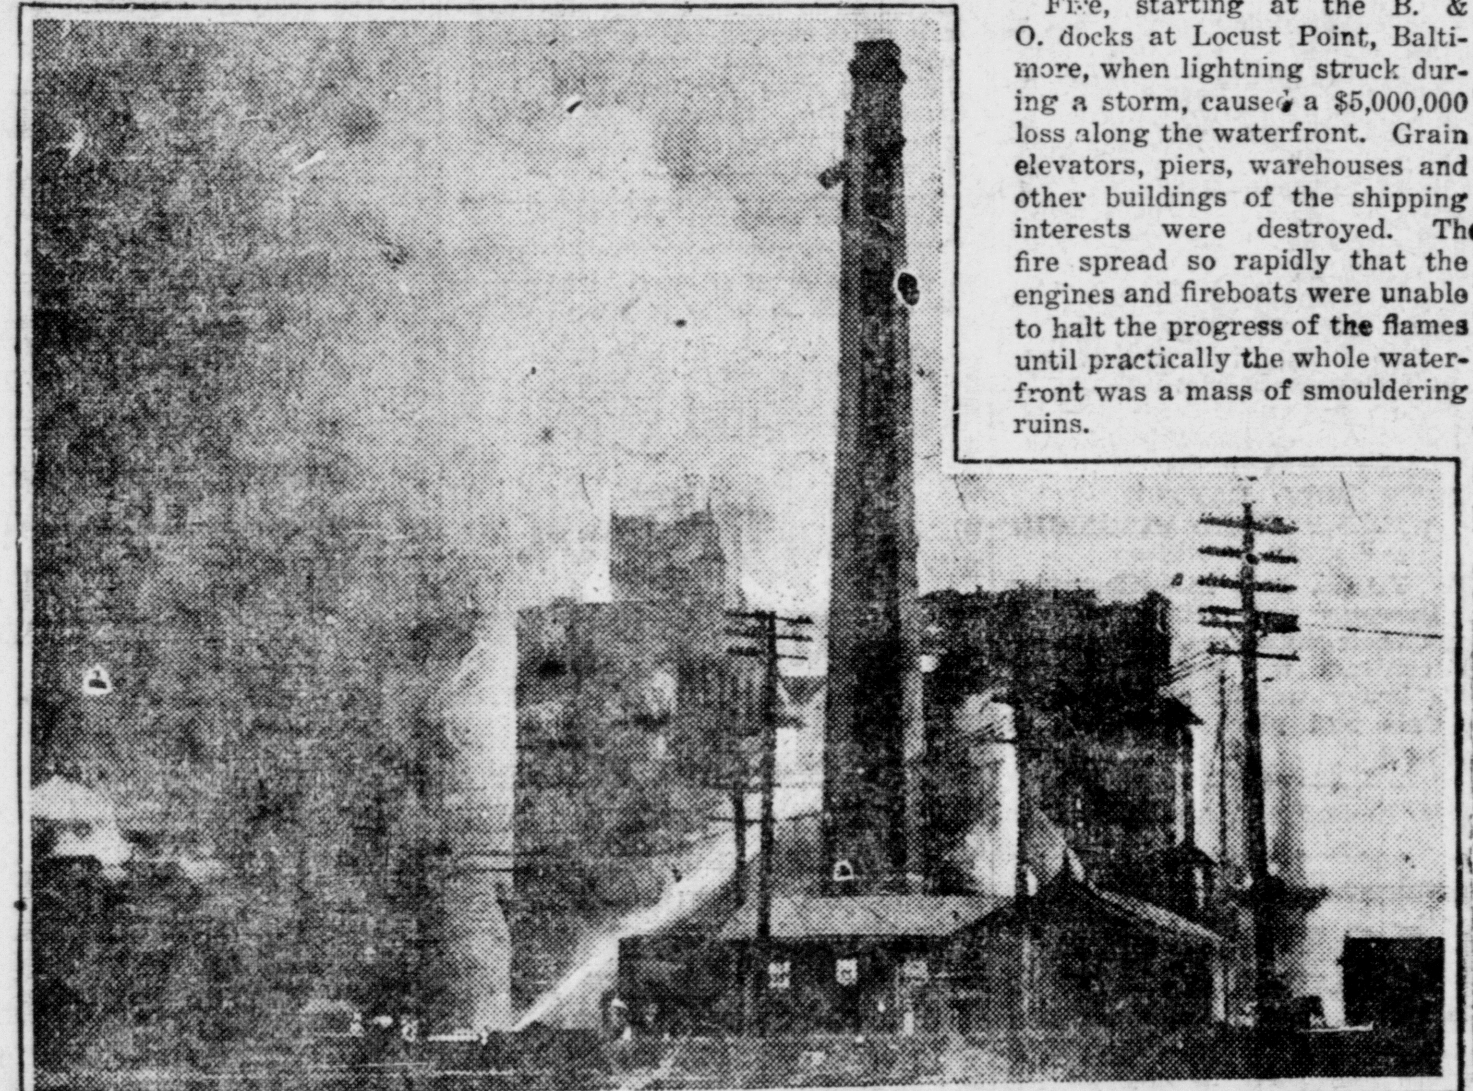

Above, left to right: De Witt Cuyler, chairman of the rail executives' committee; Samuel Ray, president of the Pennsylvania railroad; Vice President Atterbury of the Pennsylvania, and O. M. Spencer, general counsel of the C. B. & Q. Below: W. L. Mapother, president of the L. & N.; Bert M. Robbins, president of the American Short Line Railway association, and C. H. Markham, president of the Illinois Central.

Hope of averting the threatened rail strike was virtually abandoned at a meeting of the rail executives in the Blackstone hotel in Chicago. The rail heads said there was little likelihood that

any conference could be arranged to mend the differences of the employees and the roads. At the same time the U. S. rail labor board summoned the rail executives and the union chiefs to an eleventh hour conference in the hope that the strike might be averted.

FIRE CAUSES \$5,000,000 WATERFRONT LOSS

Fighting the fire at Elevator B and the ruins along the Baltimore waterfront after lightning had started a \$5,000,000 blaze.

Five, starting at the B. & O. docks at Locust Point, Baltimore, when lightning struck during a storm, caused a \$5,000,000 loss along the waterfront. Grain elevators, piers, warehouses and other buildings of the shipping interests were destroyed. The fire spread so rapidly that the engines and fireboats were unable to halt the progress of the flames until practically the whole waterfront was a mass of smoldering ruins.

When Chicago Shop Men Walked Out

Strikers leaving the Fortieth street shops of the Chicago and Northwestern railroad in Chicago.

A mass meeting to arrange strike plans and provide pickets was held by Chicago strikers in a baseball park immediately after they had left their work in the shops of the Chicago and Northwestern railroad. The strikers are in a jubilant mood, confident that they will be able to force the rail wage board to rescind its recent ruling slashing their wages unreasonably, they say.

TERRIFIC RAILROAD SMASH

Scene Cost Thousands of Dollars for Feet of Film.

Some people say that the movies are purely mechanical and that they get few thrills out of big scenes shown in pictures. Those folks have something coming when they see the terrific head-on smash between two giant locomotives that takes place in the jail delivery scene in "Where Is My Wandering Boy Tonight?" at the McSwain theatre today is shown. The scene calls for a huge locomotive running wild and on which a prison warden is fighting with several escaped convicts. The director, knowing that such a scene would not make anything extraordinary, resolved to stage a real smash-up. Forthwith two big locomotives

CITY COURT BUSINESS

KEEPS MAYOR ON JUMP

Cecil Kyser was arrested Sunday on a charge of being drunk. He was found guilty in police court Monday and fined \$8.75. L. A. Broadus was found guilty Monday on a charge of setting off firecrackers unlawfully on the streets of Ada and was fined \$8.75. Bill Hutton was found guilty on a charge of drunkenness and fined \$8.75. L. E. Rains was taken in on Monday and Tuesday, both times charged with being drunk. He paid fines of \$19.75 and \$10.00.

Each of Germany's blinded former soldiers is provided with a "caretaker" and a trained dog.

MRS. BEN HOOPER FIRST WOMAN TO GET NEAR SENATE

(By the Associated Press)
OSHKOSH, Wis., July 11.—Mrs. Ben C. Hooper, of Oshkosh, Wis., is the first woman in Wisconsin to receive the endorsement of a political party for nomination as United States senator. At the recent state Democratic conference she was unanimously chosen to represent the party at September primaries. This means that she will oppose either U. S. Senator Robert M. La Follette or Dr. W. A. Grandfield, nominees of two different factions of the republican party at the general election.

For the last fifteen years, Mrs. Hooper has been an ardent worker for woman suffrage. When women were given the right to vote, she was instrumental in organizing the Wisconsin League of Women Voters of which she has been president since its organization in 1919. She was a member of the National committee on Armament Education of Wisconsin League of Women Voters and also was a member of the National American Women's Suffrage board.

Mrs. Hooper was born in Winne-shaak county, Iowa in 1865, and because of delicate health, never had an opportunity to attend public schools, receiving here education through training of a governess. She has been a resident of Wisconsin for the last thirty-five years.

Marriage, according to Mrs. Hooper does not destroy woman's identity, and she is quoted as saying: "The time is coming when woman, in her tenacious ability to get what she is after, will find a way of marrying and having a home and family without giving up her identity and independence."

Mrs. Hooper spends a great deal of her time in assisting her husband in a general merchandise establishment, and always finds time to take a fond interest in the care of her home.

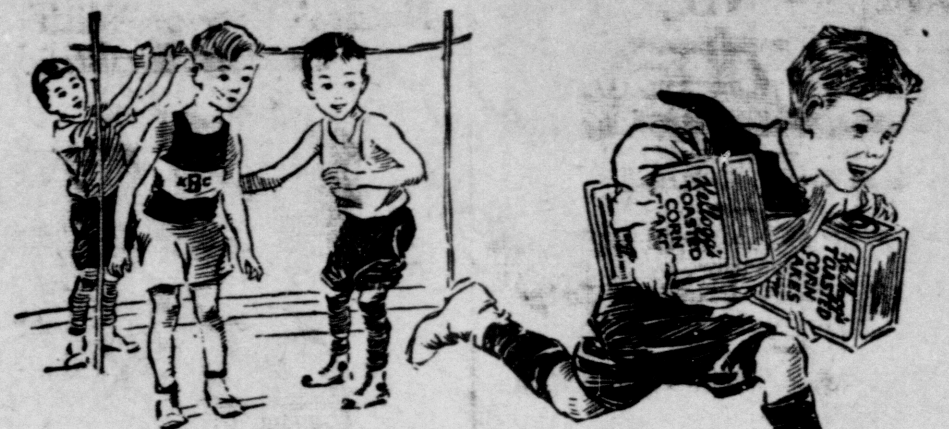

There is no greater admirer of former President Wilson than Mrs. Hooper, who believes that the ideals he brought before the people of America while president, will live forever in the history of the United States.

During the World War Mrs. Hooper was active in Wisconsin, spending a great deal of her time as head of the Liberty Loan drive in Oshkosh and working with the council of defense. She is an ardent believer in world peace and believes that her life's work will have been accomplished if she can help bring about an understanding among nations of the world.

Mrs. Hooper always has urged women to take an active part in politics, saying it was the home that was affected first of all by such measures as taxation, and is quoted as saying: "Advancing taxes affect the home first of all, because it is the only place where the business man dares economize."

This is the first time that Mrs. Hooper has ever taken part in party politics though actively connected with many state movements.

"Say—would you look at that Barney beating it home with two big packages of Kellogg's Corn Flakes! Bethe, Bill, that Barney is trainin' on Kellogg's and we better get him on our team, all right! Gee, maybe he ain't runnin' some speedy. Bet he is a record-smashin' boy—eh, what?"

Such appetizing, nourishing food for the hot days—

Kellogg's CORN FLAKES

they're so easy to digest!

Kellogg's Corn Flakes will become a mighty important part of your summer diet if you'll realize what they mean to health.

Cut down on heavy food during the warm weather. You'll feel a lot better and get away from that drowsy, sluggish feeling. Eat lighter foods. Kellogg's Corn Flakes are ideal, for they are not only delicious in flavor and appetizing crispness, but nourish and sustain! Kellogg's digest easily and rest the stomach and help keep your head clear and your body cool.

Kellogg's Corn Flakes are wonderful with the fresh fruits now in season; and, as an extra-dessert treat, serve Kellogg's with fresh fruit and a generous helping of cream—a dainty feast that is appetizing and delightful!

Kellogg's Corn Flakes are sold only in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it.

Also makers of KELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and krumbled

LET A NEWS WANT AD GET IT FOR YOU

A Guide to What's Good to Get

Some one has said that if bread and butter were new inventions they would have to be advertised before people would accept them as standard articles of food.

Even in this progressive age, folks are somewhat wary of leaving the beaten path. They stick pretty close to the things they know, when those things come up to their expectations.

That is why alert merchants and manufacturers strive to tell about their products and their services in the advertising columns of the daily paper. They want you to know what they have to offer, in the belief that when you do know, you will be interested, and perhaps inspired, with some of their own enthusiasm.

Thrifty men and women find that it pays to read the advertisements. It enables them to rest assured that they are not overlooking anything. It lets them know where to locate some desired product or service; where to go for "this" or how to get "that" to best advantage. Without its direction they would overlook much and consequently lose much. They would live in ignorance of many things that might add materially to their wealth, health and happiness.

Make advertising your guide to what's good to eat.

Read it---reflect on it---it pays

BIG BARGAIN—My two modern homes, one on East 14th, garage, one on East Main, one of the prettiest in the city. Will sell furnished if desired. Must be seen to be appreciated. No phone calls. Call at 728 East Main. Mrs. Edward Rowland.

WORKS FOR CHILD MUST KEEP WELL

Mothers in a Like Situation Should Read This Letter from Mrs. Enrico

Chicago, Illinois.—"I took Lydia E. Pinkham's Vegetable Compound for a serious trouble. I had tried doctors and all said the same—an operation. At first I only felt the pain on my left side, but later I seemed to feel it on both sides. I am a power sewing-machine operator and have a little girl to support. I work in a tailor shop and that line of work has been very slack this year and I am home part of the time. I do not like to take any chances, so I consulted my friends, and one lady said, 'Take Lydia E. Pinkham's medicine,' so I did. I have felt better right along and am in good enough health to go to work. I recommend your Vegetable Compound and Sanative Wash to all."—Mrs. Mary Enrico, 459 N. Carpenter St., Chicago, Illinois.

Often the mother is obliged to support her children and good health is necessary. Lydia E. Pinkham's Vegetable Compound is just the medicine you can depend upon. It is a medicine for women's ailments and the relief it brought Mrs. Enrico it may bring to you. Keep well by taking Lydia E. Pinkham's Vegetable Compound.

Miss Kathleen d'Olier of Rochester, N. Y., is soon to leave Washington for Porto Rico to undertake the establishment of a child welfare center there. Miss d'Olier established the first and only child welfare center in Athens, Greece, in 1920, under the American Red Cross nursing service.

For their most energetic functioning. Perhaps such misfortunes pave the way to a drastic increase of government control. But if the instinct of the nation remains sound it will as long as possible resist the tendency toward socialization, so-called, or bureaucracy, and the enlargement of state interference in industry. There is a wide field before government control it reached. There is much to be done in the way of bringing about conditions upon which the interests of employer and employee may be harmonized. In one sense, and under conditions largely prevailing, those interests may be incompatible. The more investment takes from a given fund of earnings, the less is left for labor, and vice versa. One method is industrial warfare mitigated by compromise. Another is to make the interests more nearly identical by merging the employer or investor and employee. We think for too little effort has been made to make it easy and profitable for employees to become owners. Some large corporations have gone a considerable way in this direction with excellent results. It is by no means an easy problem, but we believe it is worthy of more study and practical experiment.

SHE'LL DO CHILD WELFARE WORK IN U. S. POSSESSIONS

Miss Kathleen d'Olier.

Miss Kathleen d'Olier of Rochester, N. Y., is soon to leave Washington for Porto Rico to undertake the establishment of a child welfare center there. Miss d'Olier established the first and only child welfare center in Athens, Greece, in 1920, under the American Red Cross nursing service.

For their most energetic functioning. Perhaps such misfortunes pave the way to a drastic increase of government control. But if the instinct of the nation remains sound it will as long as possible resist the tendency toward socialization, so-called, or bureaucracy, and the enlargement of state interference in industry. There is a wide field before government control it reached. There is much to be done in the way of bringing about conditions upon which the interests of employer and employee may be harmonized. In one sense, and under conditions largely prevailing, those interests may be incompatible. The more investment takes from a given fund of earnings, the less is left for labor, and vice versa. One method is industrial warfare mitigated by compromise. Another is to make the interests more nearly identical by merging the employer or investor and employee. We think for too little effort has been made to make it easy and profitable for employees to become owners. Some large corporations have gone a considerable way in this direction with excellent results. It is by no means an easy problem, but we believe it is worthy of more study and practical experiment.

There is a wide field before government control it reached. There is much to be done in the way of bringing about conditions upon which the interests of employer and employee may be harmonized. In one sense, and under conditions largely prevailing, those interests may be incompatible. The more investment takes from a given fund of earnings, the less is left for labor, and vice versa. One method is industrial warfare mitigated by compromise. Another is to make the interests more nearly identical by merging the employer or investor and employee. We think for too little effort has been made to make it easy and profitable for employees to become owners. Some large corporations have gone a considerable way in this direction with excellent results. It is by no means an easy problem, but we believe it is worthy of more study and practical experiment.

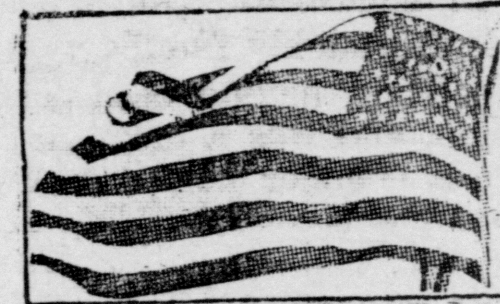

Means of distributing shares in an established enterprise to the employees should be improved and extended. Our people in the main earn enough to make investment, and the settled industries offer the best of investments.

If this were accomplished on a large scale we should have workers represented in management, and what is even more important, we should have them not only sharing in the benefits of good management but willing to face the problems of operation and business success from the point of view of ownership. That, in our opinion, would avoid a great deal of discord with its unnecessary and costly economic drain upon the prosperity of worker and investor alike.

Investment, management, and labor—labor of the brain and hands—have a common interest in peace and in all conditions which make for the continuing success of an enterprise. If we realize this and work toward an industrial organization which shall be more directly expressive of this common interest we shall get toward industrial peace and efficiency and away from bureaucracy and political domination.

DOINGS OF THE VAN LOONS.—But Father found something that the Grandmas agreed on, anyway.

By F. LEIPZIGER

To the Democratic Voters of Ada and 23rd Senatorial District

Without in any manner reflecting on the fitness of the other candidates for the State Senate, I want to say a few words in favor of the claim of one of them for your vote at the election August 1. W. H. Ebey has lived in Oklahoma since the opening of the country to settlement, in April 1889. For the past 18 years, his home has been at Ada. All his property is located in this city and county. He is thoroughly identified with the citizenship of Oklahoma, Pontotoc County, and the City of Ada. His material interests are identical with yours. He is generally recognized by every one who knows him as a successful business man—one who deals on the square in all things. Ebey is recognized as a broad gauged, progressive citizen. He is a booster and has been an active supporter of every public enterprise that has been proposed since coming to Ada. He has given of his time and money and energy to push the upbuilding of this county and city. He was in the forefront of the long fight that ended in the location of the East Central State Normal School at Ada and believes that that school should be supported by ample appropriations to assure its future growth. He has been an active worker in democratic ranks ever since he became a voter. He is thoroughly familiar with the details of legislative proceedings, having been clerk of the House during one session, and was a member of the 7th Legislature and while a member helped secure the appropriation of \$100,000 for a second building for the Ada Normal besides other beneficial legislation. During the last legislature when the Ada Normal was having trouble over its appropriation Ebey was sent by the Ada Chamber of Commerce to look after the Normal interests which should both attest his interest in the Normal and the recognition of his legislative ability. The matter of selecting members of the legislature ought to be largely a business matter. We select and send members to the legislature as our agents to represent us in making laws. Ebey is identified with us. He is capable. He can be depended on to faithfully represent our interest in the legislature. He is standing for election with the knowledge that his election means a personal and financial sacrifice. He is ambitious to do something to aid further in the upbuilding of Oklahoma 23rd Senatorial District and the City of Ada. He rides no hobby and has no fancy for freaks. He believes in plain horse sense in legislation as in business and is capable of making a useful and effective member. There is every reason why the people of Ada should support W. H. Ebey.

(Contributed and paid for by one who believes that Ebey should be nominated)

Farmers' Column

By Byron Norrell

I visited the Ada pickle factory a day or two ago and found cucumbers rolling in at a lively rate. Mr. Atkinson stated that he had about 3,000 bushels in brine and the receipts of the remainder of the season will depend on the rainfall. He stated that several have decided to try a fall crop.

The cucumber crop of this season has been raised under several handicaps. The prolonged rains of the spring put the crop in the weeds and in some places the bugs did considerable damage. Cucumbers being a new crop some farmers did not know a great deal about handling it, but all have learned quite a bit about it and in raising the crop now being marketed. Another year will see great improvement all along the line.

Mr. Atkinson has been very liberal with his patrons. Under the terms of his contract with them he was to pay half cash and give due bills for the other half payable six months hence. However, a few days ago he decided to pay in full as he went. He called in the due bills already out and has been paying in full for all received since. He stated that he is also taking cucumbers half an inch larger than the contract calls for, this in itself being equivalent to an increase of 20 percent in price. With a start of this kind there is every reason to believe that next year a great deal more attention will be paid to the cucumber crop.

Several growers have done well this season. J. N. Hammond, who lives three miles north of Ada, told me that he has sold \$65 worth from half an acre and will get more yet, depending on the rain, of course. Perhaps others have done as well or even better than this. At all events it has been demonstrated that cucumbers can be made a profitable crop here.

The farmers have a just ground for complaint at the reckless way in which some autoists kill their chickens and turkeys. Although it would be little trouble to exercise some care, I have seen drivers who seemed to take a delight in running through a bunch of fowls crossing the road. I had some trouble in this line when we lived on the farm two years ago. We lost at least a dozen turkeys from this cause and did any of the drivers stop to apologize or offer to pay for the damage? They did not. If I was on a jury that tried a farmer for turning a shotgun loose on some of these smart guys he would certainly get the benefit of every doubt, for it is most disheartening to try to raise something only to have some feather-brained idiot kill it just for the fun of the thing.

Here are some suggestions about marketing that I clipped from the Farm and Ranch. Several of the ideas are good ones, and can be followed profitably. Here they are:

Farmers should know more about the consumer; his wants, his ways and means of using the products; his ability to pay, before much progress can be made in selling farm, orchard and garden products. Learn the consumer so you can please him.

Good products must be raised, harvested at the right stage of ripeness, and delivered in an attractive, sound and serviceable condition before good prices can be expected. Buyers want value for their money.

Crops that are ready for market when the market wants them are the crops that sell well and cost farmers less in selling cost. When one must sell when buyers do not want to buy one is at the mercy of buyers.

Farmers who complain at speculators who buy and hold for better prices should estimate the cost of providing shelter and storage room, deterioration and other cost, and then see whether or not it is profitable or feasible for farmers to hold their own products for better prices.

When one owes accounts that are pressing there is very little comfort, consolation or profit in holding the products for better, or worse, prices. The sooner notes, bills and accounts are settled the sooner one can do as one pleases with his crops and animals.

It is advisable to investigate the probable demand for perishable products and the possible margin for profit in growing them before risking too much expense. Millions of dollars in the Southwest have been lost because growers did not know some of the difficulties in marketing perishable products.

Personality is a great asset in marketing anything—farm products are no exception. Neat, intelligent, well-informed people have many advantages over the ordinary in selling direct, or to dealers. Know your business; be able to teach the other fellow; if he really wants information. But please, rather than preach to him.

Honesty is the best policy. Banish every idea or contrivance that would in the least deceive. Sell the products on their merits and make good every unit, even if you lose money. Such policy will build your business.

Do not forget that it costs something to sell farm products. Whether you sell or your merchant, commission man or grower's association sells, there will be cost. You can't get service for nothing. Whatever your plan may be, estimate the cost and pay what is necessary for economical marketing.

CITY HAS THIRD OF ALL PROPERTY VALUATION

The tax assessor's records show that recently completed personal tax assessment gives Ada more than one-third the total amount of the county assessment. The county assessment is \$3,499,575, with exemptions totaling \$312,715. The amount due from the city of Ada is \$1,348,590 with exemptions of \$65,440.

and are now out of the Santa Fe service.

Wage Scale Compared.

"In its last decision, the labor board gave the average hourly rate of wages paid to machinists, boiler-makers, blacksmiths, sheet metal workers and electrical workers from 1917 to 1922 as follows:

December, 1917, 50.5 cents; January, 1920, 72.3 cents; May, 1920, 85.3 cents; July, 1921, 77.3 cents; Present Decision, 70.3 cents.

"The hourly rates for carmen: December, 1917, 37.7 cents; January, 1920, 68.0 cents; May, 1920, \$1.0; July, 1921, 73.0 cents; Present decision, 64.4 cents.

"The board reported the increase in the cost of living over 1917 (U. S. government data) to be: January, 1920, 40.0 per cent; May, 1920, 52.0 per cent; July, 1921, 26.7 per cent; March, 1922, 17.2 per cent.

"The board also found the percentage of increase in the purchasing power of earnings of machinists, boiler-makers, blacksmiths, sheet metal workers and electrical workers as compared with December 1917 to be:

January, 1920, 2.3 per cent; May, 1920, 11.1 per cent; July, 1921, 20.8 per cent; Present decision, 18.8 per cent.

"Percentage of increase in the purchasing power of the earnings of carmen:

January, 1920, 28.9 per cent; May, 1920, 41.2 per cent; July, 1921, 52.8 per cent; Present decision, 45.7 per cent.

Reduction Protested.

"The strike is against the reduction from 77.3 cents an hour to 70.3 cents an hour for the first five classes named, and from 73 cents an hour to 64.4 cents an hour for the carmen; also against the application of new overtime and travel time rules awarded by the Labor Board in its decision No. 222, effective September, 16, 1921, cutting out time and one-half for Sundays and holidays for certain classes of employees necessary to the continuous operation of the railroad for Sunday and holiday work; also against applicants for employment being required to take physical examination; also against the elimination of a provision in the old Railroad Administration Agreement or what was known as the National agreement, effective October 20, 1919, which provides that in case of not being able to employ car-

men with four years experience, forces could be increased only by promoting apprentices with two years' experience, or helpers with four years experience.

"It is not my intention to argue the points determined by the Labor Board, but to inform employees and citizens who have not followed the case carefully just what the strike against the United States Labor Board is about."

NEW WAGE SCALE ARGUED TUESDAY

Operators and Miners To Give Harding's Plan Due Attention.

WASHINGTON, July 11.—The coal strike situation marked time today pending the decision of the operators and miners in the anthracite and union bituminous fields as to the acceptance of President Harding's proposal of a new wage scale by arbitration and immediate resumption of work at wages of March 31.

The miners are delaying a definite reply to a decision by the policy committee of the union mine workers of America which meets here Saturday, while the operators also withheld a decision pending opportunity for deliberation of the plan with their associates.
